VISO FOLD 1000 Profile Aluminium Bi-Folding Doors

Aluminium bi-fold doors transform a home: The creation of relaxing, stylish open plan living, delivering stunning panoramic views and allowing light to flood in to rooms.

Rooms with a view

Bi-Folding Doors allow entire walls in homes to be glazed and visually accessible, making the most out of gardens and patios. These beautifully designed, versatile doors create a contemporary look for any home, whether it's a living room, bedroom, kitchen or conservatory.

Practical in every way

Equally at home in new-builds, extension projects or updating period style properties. Allowing the outside in brings home interiors and exterior spaces together extending practical usable areas: The home and garden in synergy all year round

Strong, durable, secure & stylish

Aluminium Bi-Folding Doors come with all the assurances you would expect from a quality designed product. Aluminium profiles are designed to give strength and durability, ensuring a structurally sound product that requires minimal maintenance and delivers reliable performance over a lifetime of use.

Low maintenance

Scratch resistant powder coated finish.

With an aluminium profile that is designed to be strong and durable, our Bi-folding Doors deliver a reliable performance as well as being pleasing to the eye.

Polyamide thermal barrier technology helps keep homes warm in the winter, **reducing energy bills and subsequently future carbon footprints.**

Advanced profile technology creates a thermal transmittance

barrier between the cold air outside and the warm air inside (or vice versa), keeping homes comfortable throughout the year, whatever the weather.

To protect homes against unwanted visitors, high security multi-point locking mechanisms are fitted on opening sashes, with shoot-bolt locking and internally glazed sealed units for added assurance.

PAS24 upgrade to is also available.

Threshold Options

Our Aluminium Bi-folding Doors offer a range of different thresholds to suit every need.

Rebated Thresholds come in either our standard range or the integrated cill variety. The integrated cill threshold is for open out doors only but allows for a lower step over height compared to our standard range when coupled with a projection cill.

Low Thresholds are also available. The DV171 (open in) and DV271 (open out) thresholds are compatible with ramps (EUD03) allowing easy access. These thresholds are not fully weather rated due to not having a rebate, intended as room dividers and ideal for disabled access
